DETAILED ACTION

1. Claims 1, 3-10 and 13-24 are pending. Applicant's July 24, 2003 Amendment has been received. The Office Action dated February 11, 2003 is hereby withdrawn.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1, 3-10, 14-18, 20-22 and 24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1, 9, 10, line 1 of each, "POS" is not clearly defined.

Claim 24, line 7, "POS" is not clearly defined.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3627

5. Claims 1, 3-10 and 13-24, as understood, are rejected under 35 U.S.C. 103(a) as being unpatentable over Kolls, US 6,601,040.

Kolls discloses a point-of-sale (POS) system, e.g. 500, 614, that may use voice activation, e.g. 534 comprising a host unit, e.g. 500, data communication lines, e.g. 530 communicating with a server, e.g. 632. Kolls discloses that the execution of processes may occur at the host unit while the POS terminal unit may not have such execution programs, e.g. Abstract, and the existence of a bank-related system and credit-related system, e.g. cols. 15-16, lines 64-16. Kolls does not specifically articulate the term maintenance unit. It is noted that maintenance systems within a POS system are common knowledge with the POS art. To have provided a maintenance unit for Kolls would have been obvious to one of ordinary skill in the art. Doing such would provide common knowledge operating systems used with POS systems.
